

TACPAC[®] Sensory

Communication through touch and music

TACPAC draws together touch and music to create a structured half hour of sensory communication between two people

TACPAC creates sensory alignment and helps people of any age who have sensory impairment, developmental delay, complex learning difficulties, tactile defensiveness, and limited or pre-verbal levels of communication.

TACPAC, created in 1997, is used by tens of thousands of teachers, parents, carers, OT's, speech pathologists, and all related professionals in the field of sensory communication around the world

tacpacsensory.au

I am an OT in a specialist Intellectual Disability team in CAMHS, and TACPAC is a wonderful tool for professionals and families as well as schools.

TACPAC focuses on Sensory Processing where there are sensory processing difficulties

TACPAC is brought to you by our website tacpacsensory.au and Smitha George who heads up our WA Team smitha@tacpac.co.uk

- TACPAC can be used by anyone.
- TACPAC builds communication skills.
- TACPAC enables progress to be measured and recorded.
- TACPAC can be used in any setting – at home, in school, in hospital, in residential care or even outside.

Hilary, You have given much joy to many with your creation of Tacpac. You really have made a difference to the lives of many children and their families.

Sue Murray, BLENNZ School,
New Zealand

I have been working with children with special needs for the past seven years.

I have been amazed at the transformation in children who have been exposed to Tacpac.
